Prevent Referrals in Schools Survey (Aarhus University)

Researchers at Aarhus University are running a survey with **secondary school and college teachers in the UK and Denmark** to improve understandings of teacher reporting of student vulnerability to radicalisation. The overall aim is to increase understandings of the support that could be provided to teachers in their work with vulnerable students.

The survey should take approx. 6 minutes to complete and there are 40 x £50 Amazon vouchers available to participants to win in a raffle.
