

Council of Portsmouth Students Summit Two

— Wednesday 5th February 2020 —

**Representation: 42
students from 11
different schools and
colleges**

Kellie opened the day with an introduction and a reminder of why the forum exists and the purpose of the day.

The day started off with an icebreaker facilitated by Hannah Lushey from the executive group!

The students enjoyed playing spalt and everyone was involved and having fun.

DEVELOPING YOUNG POTENTIAL

Suzy Horton from Portsmouth City Council then came along and worked with the students on how the Young People's and the City Council's priorities line up and how the students can engage and share their ideas with the council.

DEVELOPING YOUNG POTENTIAL

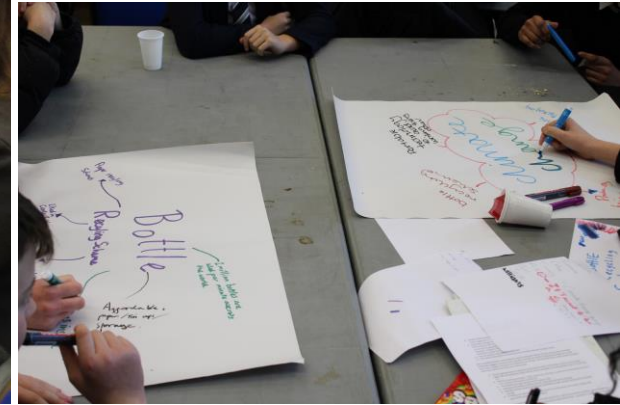

After the break students had time in action groups to discuss their plans and work on what decisions they wanted to make moving forward.

Students took the time to mind map their ideas and assign actions to each member of the group.

Each of the action groups then delivered a presentation to update and inform the rest of the CoPS member of their priorities and actions.

DEVELOPING YOUNG POTENTIAL

After lunch students took part in an energiser that involved keeping your teeth hidden whilst you said words or phrases from a particular category!

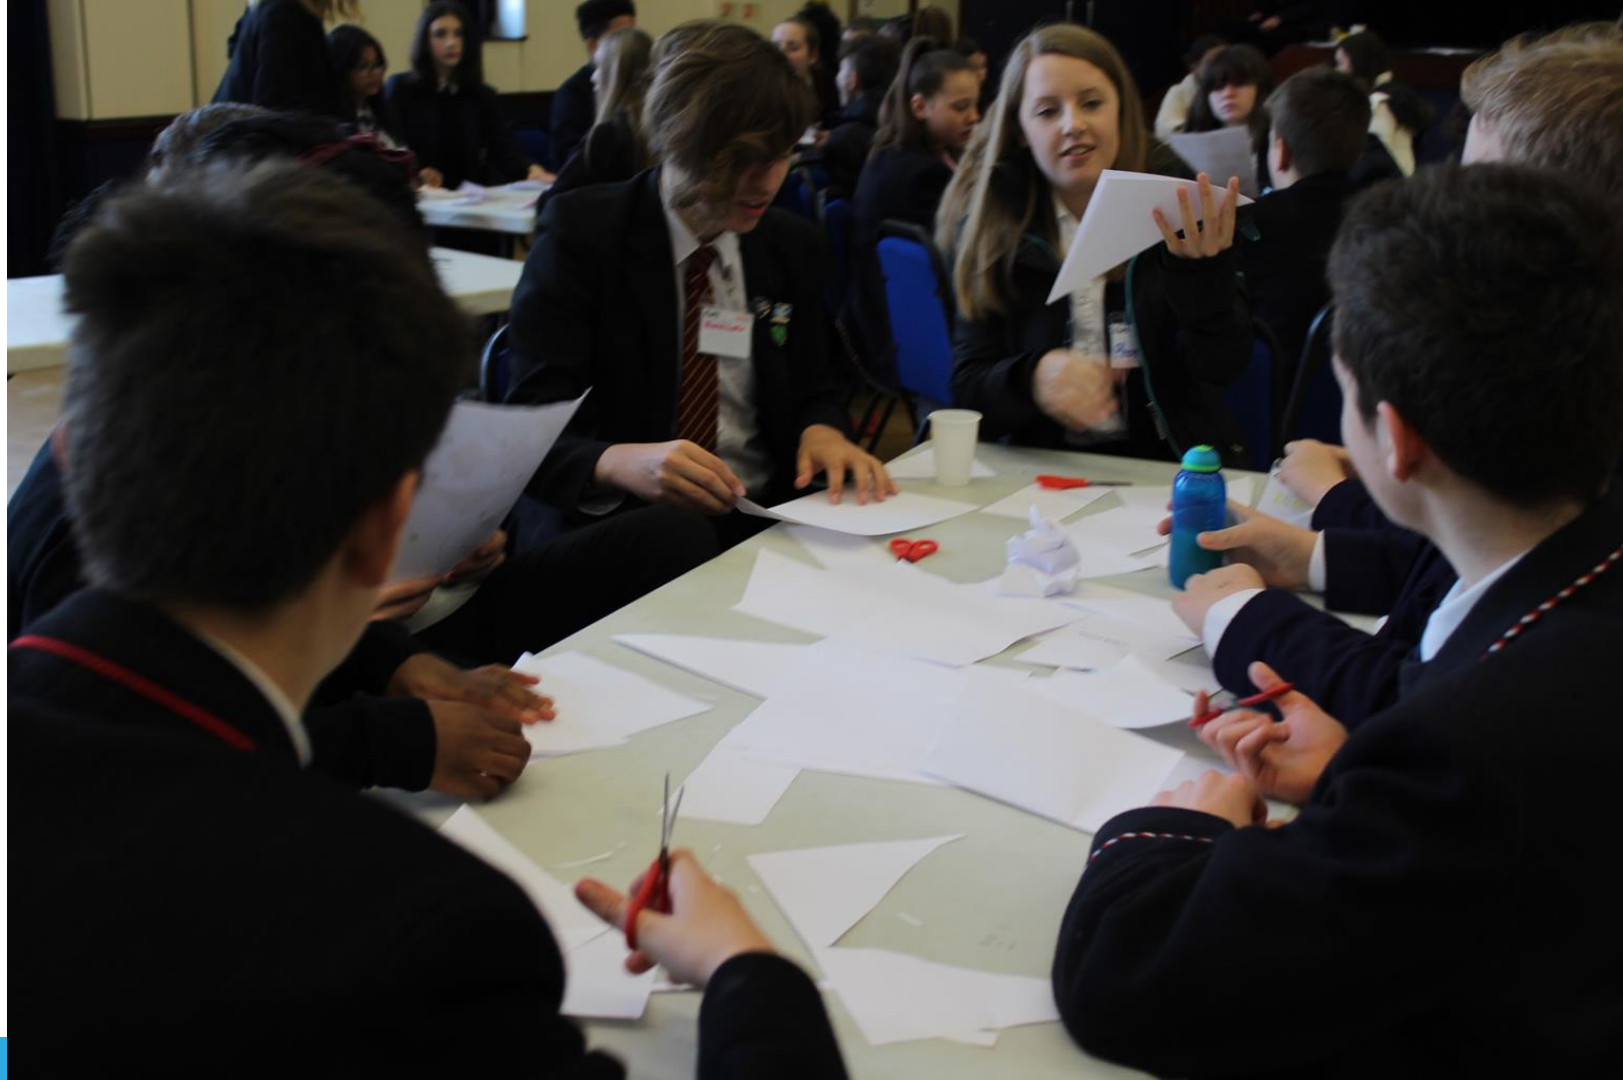

After the energiser students then engaged in two different communication activities. The students first task revolved around origami.

Students were not allowed to look at the instructions and had to trust one leader from the group.

After working hard on their communication skills, students then took part in a Kahoot Quiz!

We also have some photos of the students having fun and taking some selfies...

THANK YOU!

Thank you to all of the support we have received so far this year on enabling the Council of Portsmouth Students programme to keep running. I am really looking forward to supporting the students to achieve the change they want to see. It has been great to see so many of your students at the action group meetings also, we have had some really productive sessions and I am enjoying watching their ideas come to life. The next summit is:

Wednesday 29th April 2020, 9:30-14:30, Portsmouth Grammar School, 1 High St, Portsmouth PO1 2LN
