

It all started back in March when Lockdown began... and now school is starting to open again, Super-School-Man is battling to make school as safe as it can be against the Evil Covid virus – his own personal kryptonite!

When you arrive at the Car park gate you will wait on the taped lines. These will boost your super strength for the day (or keep you all 2 metres apart, very similar!).

Look Mrs Killick has come with hand gel... Evil Covid virus' worst nightmare...

And now we wait on our spots...

Until a teacher comes to take you in.

We'll be in bubbles. Not actual bubbles but small groups of up to 15 other children and 2 adults. You need to stay with just these people, and in designated zones all day. This group will become your very own Avengers Team.

You could have any of these superheroes disguised as teachers in your bubble... look out for them!

*Together we will get through and have fun! Wash your hands, keep 2 meters apart and although Super-School-Man will be busy when you return, everyone else is really looking forward to seeing you!*
